Gas Pycnometer

Micromeritics

Model: ACCUPYC1330TC

Chemical Engineering
Mahidol University

The AccuPyc gas pycnometer from Micromeritics is trusted around the world to provide the most reliable determinations of true density. More labs choose an AccuPyc than any other commercial gas pycnometer. The Accupyc delivers the highest available accuracy and repeatability in a system that is fast and easy for any operator to use.

Capabilities :

- The density of battery cathode and anode materials
- Pharmaceuticals
- Metal Powders
- Total solids content of liquid coatings
- Catalysts, Mining, Polymers And Composites

Service fees

Details	Students and staff within the university/ institute partners (MOU)	External personnel (government organization)	External personnel (private organization)
Gas Pycnometer	200 THB/hr. (self-service)	350 THB/hr. (self-service)	500 THB/hr. (self-service)
	300 THB/hr.	450 THB/hr.	600 THB/hr.
